Dear Friends,

On Saturday, 28 November 2009, at 8:45 in the evening, the Venice Foundation will proudly present another extraordinary musical event in the Basilica of San Marco in Venice.

This special concert will be a performance by the Twelve Cellists of the Berlin Philharmonic Orchestra and the trumpet soloist Markus Stockhausen, given solely in support of our important project

On the Wings of the Angels

a restoration for the Byzantine mosaics of the *Cupola of the Creation*.

The precise and detailed restoration work – made by the skilled artisans of the Basilica – began in October 2008 and is scheduled to be completed in Spring 2011.

The overall mission of the Venice Foundation is the conservation of the heritage of Venice, including many areas of Venetian life. Our concert, therefore, has been planned for the week of the traditional and most venerated *Feast of the Madonna della Salute* [Madonna of the Health], the annual renewal by the city of Venice of the vow of faith taken after the terrible plague of 1630, and is an important part of the historic commemoration.

Please join us for this exciting occasion as we work together to preserve all aspects of our unique and wonderful city.

Looking forward to seeing you all both numerous and generous.

Best wishes,

Franca Coin
